

# v systems

**SCALABLE BLOCKCHAIN INFRASTRUCTURE  
FOR MAXIMIZED EFFICIENCY AND ENTERPRISE-GRADE SECURITY**

## About V Systems

V Systems (VSYS coin) is an open-source network that supports the efficient and agile development of decentralized applications

**V Systems** was created by Sunny King, the legendary inventor of Proof of Stake (PoS). For VSYS, Sunny King outperformed and replaced PoS with the VSYS proprietary Supernode Proof of Stake (SPoS), a distributed consensus algorithm. SPoS ensures maximized network efficiency and resistance to attacks.

Proof-Of-Stake Guru  
Sunny King: "Blockchain Is Easy - We Just Need To Use It Like A Database"

### Supernodes

### Ecosystem projects

# OUR SOLUTIONS

## VSYS for Enterprise

### Infrastructure Services for Enterprises

*Powered by Supernode Proof of Stake (SPoS)*

Flexible blockchain infrastructure for managed/self-managed, private/hybrid/public enterprise blockchain solutions

## VSYS Tools

### Cloud Services

*Reduces barriers to entry for developers and token projects with a set of pre-built cloud services*

- K8s-based containerization platform
- Virtual server (VPS)

### Tool Kit

*A complete set of infrastructures and tools to kick start your business on blockchain*

- Wallet
- Chain explorer
- Artificial Intelligence
- Decentralized messenger
- Data center and more

**v systems**

## VSYS Smart Contracts

### xLumi

*Fast, Secure, Scalable Payment Channel*

A second layer solution which enables efficient micropayments between parties for a very low fee

### Finance

#### *DeFi smart contracts*

- V Atomic Swap
- V Swap
- V Option
- V Stable Swap
- V Escrow

### Beyond Finance

#### *Extended use cases*

- Lock Contract
- Token
- NFT

# RECENT ACHIEVEMENTS

2023-2024

**11 projects**

launched or in the making in  
2024-25\*

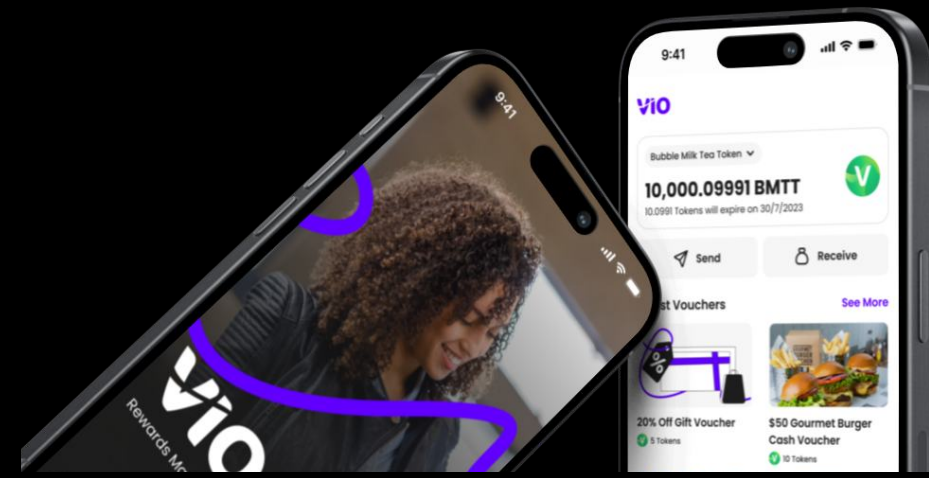

**5 MoUs** signed in 2023-2024

**4 awards** Outstanding Solutions

V Systems' community comprises over **30,000 devs and holders**

\*Including VGraph, VKube, Tetriverse, Titan Wallet, Goldzip, VIO tokenization platform, Co+Pay digital payments, two enterprise DAOs, and two more initiatives for the VSYS community.

# ECOSYSTEM PROJECTS

## B2B INFRASTRUCTURE PROJECTS

### Tokenization & digital payments

VIO and Co+Pay enterprise solutions powered by VSYS

Targeting thousands of clients in APAC

### VSYS infrastructure

DAO projects for enterprises, built on VSYS

Existing user bases of millions of users

### Tetriverse NFT Game

NFT game built on the VSYS chain

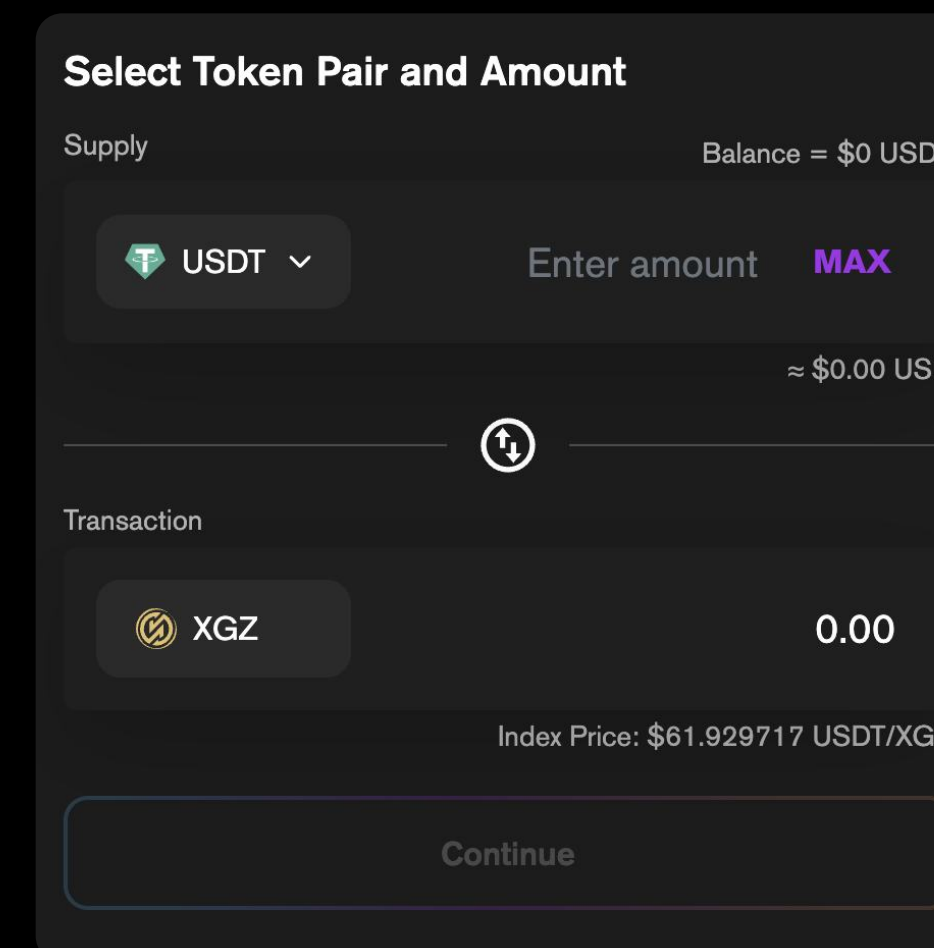

Targeting thousands of players

### VSYS-based, gold-backed digital tokens

Issued by a subsidiary of Chinese Gold and Silver Exchange Society, the only physical gold and silver trading exchange in HK

Built on the V Systems' chain

Multi-hub cross-chain bridge solution through ABTDEX to swap Goldzip's XGZ tokens with USDT, WBTC, WETH, ETH, and LINK

# ECOSYSTEM PROJECTS

## VSYS-based voucher tokens

MoU signed on 15 March 2024

Loyalty points program and voucher tokenization, built on VSYS.

## VSYS-powered DAO

MoU signed on 10 Apr 2024

VSYS-powered payment solutions for the travel industry. In collaboration with a telecoms industry heavyweight.

Development

\*Coded Solution is V Systems' platform company for B2B blockchain adoption.

# ROADMAP 2023-2025

- VKube cloud container platform soft launch
- Tetriverse NFT game development
- VSYS Titan Wallet Launch
- VKube launch (on VSYS)
- VIO & Co+Pay - Official launch
- FoodLink MoU – VIO tokenization
- Tour To Love MoU – Co+Pay
- Travel DAO launch (on VSYS)
- Investment DAO launch (on VSYS)
- Tetriverse official launch (on VSYS)
- VGraph Release
- Ecosystem expansion
- GoldZip expansion
- More partnerships

2H2023

1H2024

2H2024

2025

- VIO tokenization platform R&D (on VSYS)
- Enterprise DAOs R&D (on VSYS)
- Co+Pay digital payment solution R&D (on VSYS)

- VSYS Markeplace R&D
- Fintech Awards 2023 by etnet
  - Co+Pay
  - VIO
  - Green Finance

- VSYS Initiative for Devs
- VSYS Markeplace R&D
- VIO more merchants onboarding
- GoldZip expansion strategy
